Property Description

Type A urban space: land area 4,509 m2. In this space, urban subdivision and construction for housing, commerce, services, restaurants, and tourist developments are possible. Infrastructure for water supply and sewage drainage should be connected to public networks.

Type A buildable space: land area 11,405 m2. In urban areas and expansion, the use, occupation, and transformation of the land, as a rule, will be defined through urbanization or detailed plans.
